DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed April 23, 2007 have been fully considered but they are not persuasive. Applicant argues that Aikoh fails to disclose transmitting to a content server information on the contents being sold.

The examiner, however, disagrees. Aikoh discloses an electronic data transaction method and system. The electronic system is a secondhand selling system for reselling music contents at a lower price than the original price (0022). The system further discloses a distribution server 22 which receives information or instructions related to the secondhand music (0080, 0082, 0085). This server reads on the presently claimed content server.

Therefore, the examiner maintains that Aikoh reads on the claimed invention and the rejection is set forth below.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1, 2, 9, 14 and 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Aikoh et.al (Aikoh), U.S. Patent Pub. No. 2004/0111341.

Regarding claims 1, 2, 9, 14 and 15 Aikoh discloses a method for reselling content, comprising the steps of: (a) receiving, by a content server (22), sale information for, particular content to be resold from a seller terminal in reply to a request by a seller who wishes to resell the content over a communication network, and registering a content according to the sale information as secondhand content; and (b) providing, by the content server (22), the corresponding secondhand content to a buyer terminal in reply to a request by a buyer who wishes to buy the secondhand content, and transmitting sale information for the secondhand content to the seller terminal 0022, 0077-0079, 0097, 0119, 0123.

Aikoh further discloses paying a sale price for the secondhand content to the seller after charging a fee for the secondhand content to the buyer (0123) and paying to the seller an amount of money determined by subtracting a predetermined commission from a fee for the secondhand content paid by the buyer (0123).

Allowable Subject Matter

4. Claims 3-8 and 10-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
